COLOR BY NUMBER SAMPLE PAGES

HOW TO COLOR IN MOSAIC SQUARE, DOT & HEXAGON MYSTERY DESIGNS

Welcome to the colorful world of Mystery Color by Number! Our coloring books are designed to make your creative experience easy and fun, with a color legend of 24 shades used consistently across all 31 images in the book.

Whether you're sticking to the guide or exploring your own palette, these pages are all about enjoying the process of bringing art to life!

HOW-TO INSTRUCTIONS:

STEP 1 View the color legend:

Turn to the back cover, you will find a color guide featuring 24 suggested colors.

For added convenience, scan the QR code below to access the color guide on your phone, making it easy to keep handy as you color.

STEP 2 Start Coloring by Number:

Find the numbers on the image and match them to the corresponding color in the legend. You can follow the guide exactly or switch up the colors to make it your own.

STEP 3 Use the Right Tools:

Use colored pencils, markers, or crayons – whichever you prefer! Just make sure the shades match your desired colors from the guide or your own palette.

STEP 4 Take Your Time:

Coloring is all about relaxing and having fun! Work at your own pace and enjoy watching the image come to life, one number at a time.

PRO TIPS:

Here are some pro tips to make your Color by Number experience even better:

Blend Colors for Depth: Want to add a little extra flair? Try blending similar colors together where they meet. For example, softly transition between two shades of blue for a more dynamic, dimensional effect.

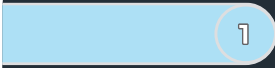

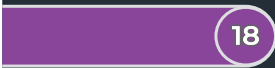

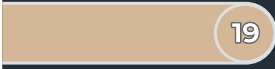

Start with Light Colors: Begin coloring with the lightest shades first, then work your way to the darker tones. This prevents smudging and makes it easier to correct any mistakes.

Test Colors Beforehand: If you're using your own palette, test your colors on a separate sheet or on the swatch page at the back of the book, to see how they look together. This ensures you get the perfect combo before committing it to the page!

Use Gel Pens for Highlights: To give your artwork a little extra pop, use metallic or white gel pens to add highlights and accents over your colored sections. It's a simple trick that can make your image look polished and professional.

Protect the next page: When using markers, the ink may bleed through to the following page. It's best to place a piece of card or paper between pages to prevent any unwanted marks.

MYSTERY SPIRAL DESIGNS

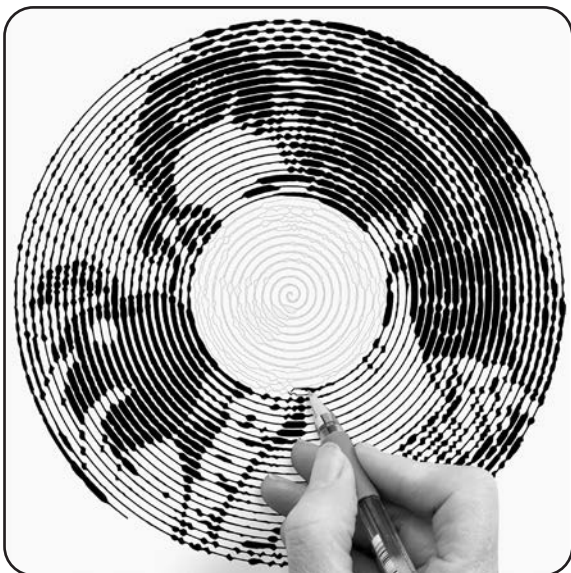

STEP 1

Where to start: Its best to work from the outside to the inside so you dont get confused on which line to color in.

STEP 2

Work your way in: Iona Vale's spiral coloring book features a convenient square shape, allowing you to easily rotate the book. This makes it simpler to color in the spirals, lines, or dots.

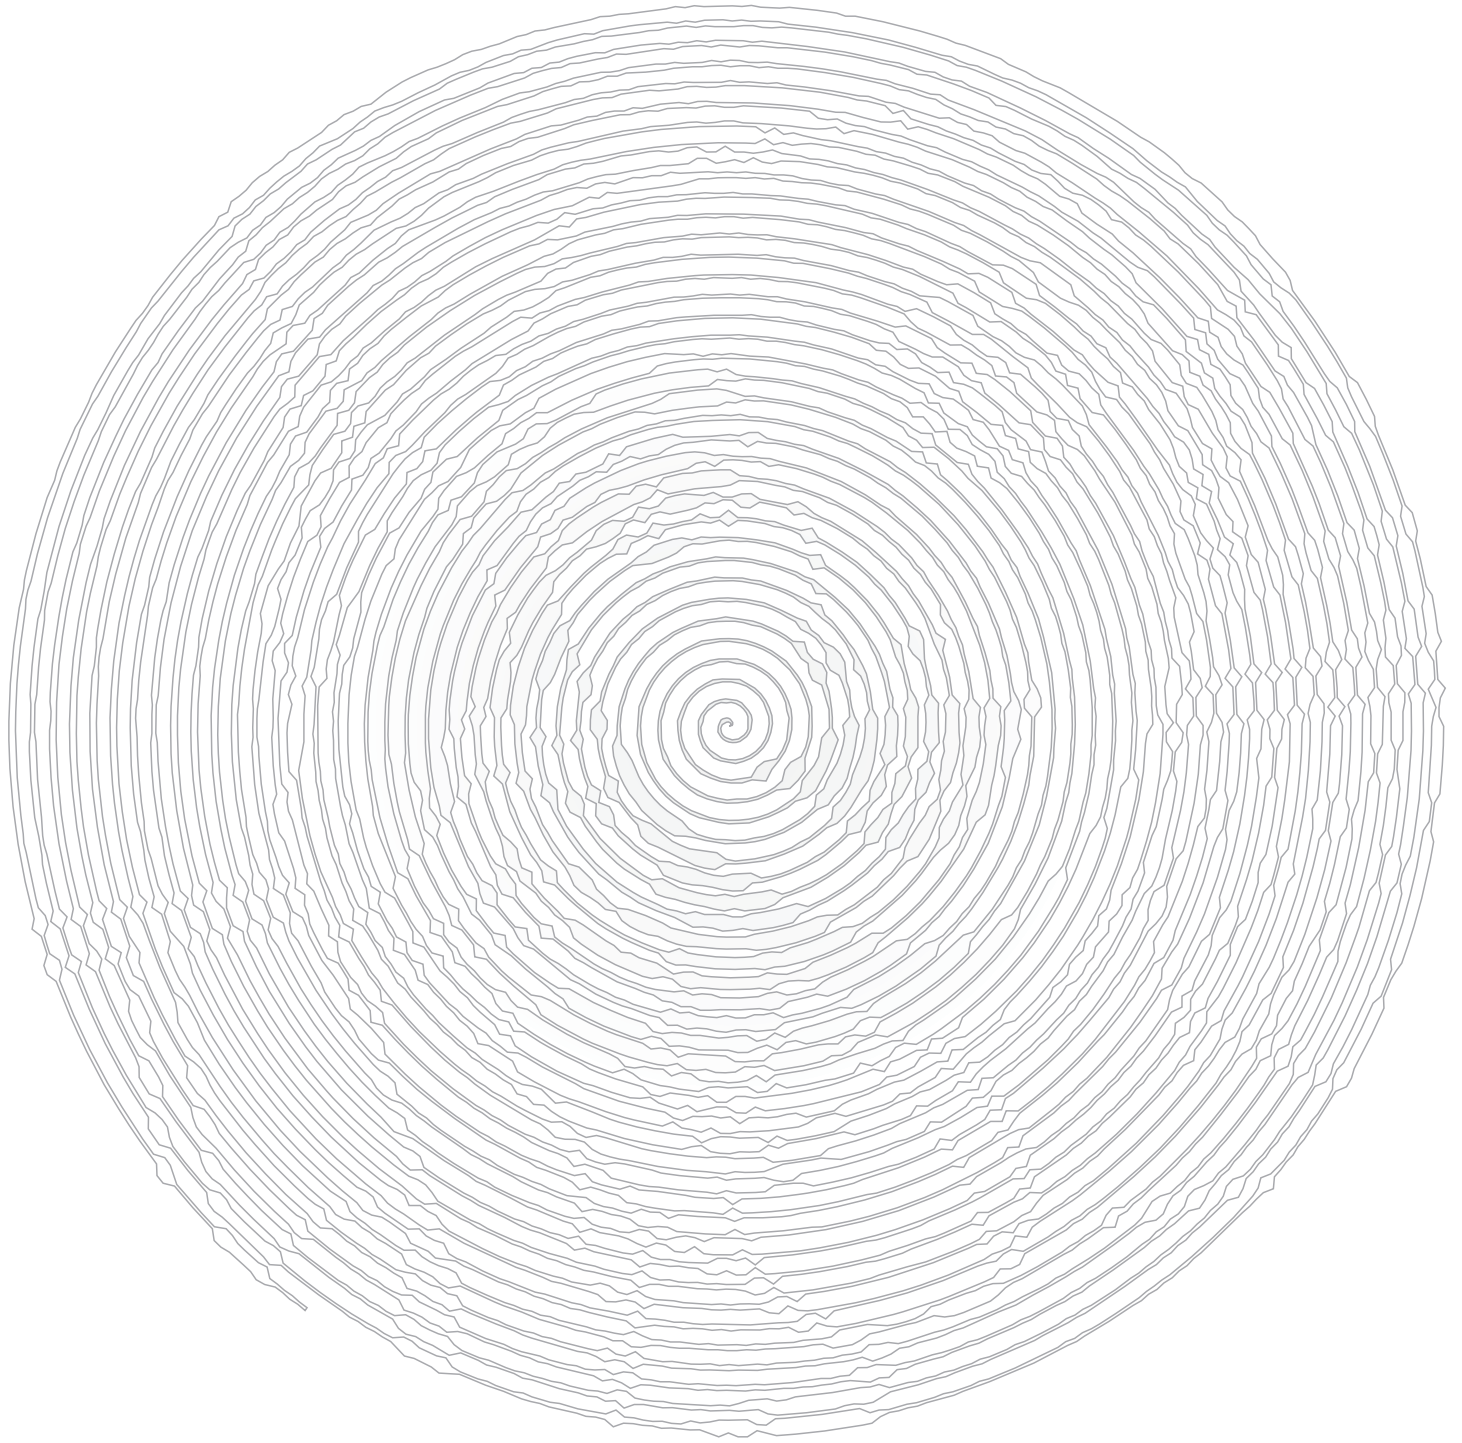

STEP 3

Slowly the Mystery Design Reveals itself.

Our quality original designs are perfect for anyone looking to mix creativity with a touch of mystery

PRO TIP:

Use Fine Tip Tools: Precision is key, so using fine-tipped pens or pencils is recommended to ensure that the intricate details are not overwhelmed by the color application. Gel Pens are often favourites to use when coloring mystery pages.
